Ceiling Painting of Sanmon

The dragon painting was repaired with assistance from the Kyoto Prefectural Government. The aesthetics have been improved with anti-peeling and complementary coloring.

The portrait of the 21st chief priests Daiyo keijiku

Repairs were made between 2023 and 2024. The damage caused by the insects was more severe than expected, and we could not even open the hanging scrolls. The hanging scroll was dismantled and repaired, and a new mounting was installed.
